Norovirus Kit
Contamination Event Response

ABSORB! NOROVIRUS SPILL KIT

PRODUCT NUMBER: VCK3000

Premium refillable OSHA compliant body fluid clean up kit system with complete tools for disinfection, removal and disposal.

- Absorb up to 3 liters of blood, vomit, feces or other body fluids.
- Effective against norovirus, MRSA, hepatitis and other pathogens.
- Water-resistant color instructions with step-by-step images.
- Complete set of personal protective equipment (PPE).
- Available in wall mountable, refillable plastic cases.

BE PREPARED. PREVENT OUTBREAKS.

Be prepared for unplanned contanimation events involving vomit, blood, feces or other body fluids. Proper response protocols involve treating all bodily fluids as potentially infectious.

The Absorb! Norovirus Spill Kit is the most comprehensive spill kit system designed for restaurant, education, healthcare, commercial and other environments. The kits were designed to fully equip first responders to disinfect, solidify and dispose of body fluids and preventing outbreaks. Northfield Medical Manufacturing is a leading provider of infection control and janitorial products.
