

Crescendo™

Bean-to-Cup Espresso

Authentic espresso alone, or as the keynote for a deftly composed premium beverage

Quality in the Cup

9 bar brew pressure used with a variable brew group to produce an excellent single or double shot with beautiful crema

Tamping sensor achieves consistently great coffee extraction

Precision burrs for clean-cut milling of the beans and assurance of superior grounds distribution

Ideal serving temperature of espresso and café beverages are achieved with our two tank system

Great Design

Consumers see the 2.2lb (1kg) bean hopper so they can view fresh whole beans

Touchpad features two programmable portion sizes from 8 to 12oz (230 to 350ml) and 9 beverage choices, plus hot water

Pleasing design with a compact footprint

The sleek, buffed nozzle guides the cup to the 5.5" (14cm) dispense area

Highest Quality Equipment

Engineered with three powder hoppers; two 3.3lb (1.5kg) hoppers for the larger demand flavors and a third 2.2lb (1kg) hopper that allows for additional flavor

Adjustable speed auger motors produce great consistency of ingredient portioning

Designed, engineered and assembled by BUNN in Springfield, Illinois
