Project #:

## MENUMASTE Item #: Commercial

MOC24 shown with door open

#### **Heavy Volume** This category of microwave is ideal for...

#### **Applications:**

Quick service restaurants

- single portions, bun warming

#### Through put potential:

- melts cheese on burgers in 8 seconds
- heats spinach dip from frozen in 1 minute 30 seconds
- heats macaroni and cheese from frozen in 1 minute 10 seconds

Location of oven(s):

- kitchen shelf, single or back to back
- kitchen counter, single or back to back

#### Defrost:

- defrosts most frozen food products

All ACP, Inc. commercial ovens are supported by our Culinary Center. Do not hesitate to contact us for any questions regarding food preparation, menu development and cooking times: testkitchen@acpsolutions.com

# **Heavy Volume**

### Menumaster Commercial Microwave Model MOC24

#### **Power Output**

- 2400 watts of power for high power density
- Top and bottom magnetrons.

#### **Increased Productivity**

- Short cook times for single serving applications, up to 42% faster.
- Increased throughput by door automatically opening when cooking cycle is complete and remaining open until ready to cook.
- Closing door and pushing control pad is one operator motion.
- Door design does not interfere with kitchen flow.
- Small, "jigsaw" shaped footprint allows for back-to-back placement on a 28 1/2" (724 mm) shelf using only 13 %" (346 mm) of space. A shelf extender accessory attaches to an existing shelf to extend it out to 28 1/2" (724 mm).

#### Easy to Use and Maintain

- Braille touch pads are ADA compliant.
- Control panel located on bottom for convenient access and angled for easy viewing.
- Plug and play operation.
- Door extends out for easy cleaning.
- Backed by our 24/7 ComServ Support Center, 866-811-8559.
- ETL Listed for safety and sanitation.

#### Specifications

Microwave oven door shall automatically open when cooking cycle is complete. Door shall remain open until ready to cook next item. To minimize space usage, door shall open upwards. Control pad shall be angled for easy viewing and located so door can be closed and control pad pushed in one ergonomic motion. Control pad shall be programmable with the ability to program up to 100 menu items, single or double digit entry. There shall be 11 power levels including defrost mode, and 4 cooking stages. Microwave shall have a 10-minute digital countdown timer. Microwave output shall be 2400 watts. Top and bottom magnetrons with rotating antennas shall provide uniform heat distribution throughout the cavity. Oven shall be stackable and have a compact, "jigsaw" shaped footprint for back-to back placement on a 28 1/2" (724 mm) shelf or countertop using only  $13^{5}/8''$  (346mm). Oven cavity shall be stainless steel construction with stainless oven door. Bottom of cavity shall be ceramic plate with a high temperature, cleanable seal.

#### **Optional Accessories**

Shelf extender accessory (OS10) attaches to an existing shelf to extend it out to  $28^{1}/2''$  (724 mm).

#### Safety and Sanitation

This ACP, Inc. product meets and exceeds safety and sanitation standards set for commercial microwave ovens by UL, ETL, NSF, CSA, and FDA

## Warranty

Warranty Certificate for this product can be found on the ACP, Inc. website at:

www.acpsolutions.com/warranty

Service All products are backed by our 24/7 ComServ Support Center.
