DROP MAT SHELVING SYSTEM

SUPER ERECTA® AND qwikSLOT™

Increases unit capacity. Available in Super Erecta and qwikSLOT styles, the Drop Mat system can maximize vertical storage density. Whether used for merchandising or storage, Drop Mat's thin shelf design, approximately 1/4", can save up to 1 1/4" per shelf level when compared to sheet metal gondola shelving.

Features:

- Thin, 1/4" shelves
- Quick Adjustability

- Fast, easy assembly and reconfiguration

- Aesthetically pleasing finishes

- Mobile

- Strong, durable

Benefits:

- Increases density up to 20%

- Super Erecta style is adjustable in 1" (25mm) increments. qwikSLOT version allows for the addition, removal or adjustment of shelves in seconds at 1" (25mm) increments.

- No tools required

- Metro's stylish design and a palate of color offerings create an attractive yet strong and durable system

- Optional casters can be added easily at any time

- Each shelf can support up to 250 lb. (115kg)

Any qwikSLOT shelf can be slanted 2" (back to front) simply by adjusting the rear clips 2" higher than the front clips for a given shelf.

For a slanted shelf with a 1 all slope from back to front, the Super Erecta qwikSLOT shelf design allows you to install an 18 inch shelf in a 14" deep unit, with a 10" slope. (Same for 21" shelf in an 18" unit; 24" shelf in a 21" unit).

Drop Mat Shelving — Super Erecta® and qwikSLOT™

*For ordering information on Designer colors, refer to bottom of page.

Important Notes:

1. A typical unit will incorporate 4 qwikSLOT posts, at least 2 Super Erecta shelves (one at the top and bottom of unit), and as many qwikSLOT Drop Mat shelves as desired between the top and bottom shelf.
2. A qwikSLOT Drop Mat shelf is rated at 250 lbs. (115kg) per shelf. A typical qwikSLOT Drop Mat unit is rated at 800 lbs. (375kg) capacity per unit. For higher unit capacities, an intermediate Super Erecta shelf must be installed approximately at mid-height on the unit.
3. Mobile Applications. All mobile applications require intermediate Super Erecta shelf installed approximately at mid-height on the unit.
