## **Roller Grill with Digital Temperature Readout**

Nemco's roller grills have always been famous for their superior diehard cooking performance. 360° roller rotation prevents residue buildup, while individual roller heating elements ensure heating consistency. Removable drip pan makes for easy cleaning. Requires no ventilation system. Infinite controls offer versatile temperature control. Front and rear rollers have their own heat controls. This feature permits shutting off one section during non peak hours. A digital readout that displays the approximate food temperature of the product for both zones. Easy access to the two motors and chain from side panels. Non Slip Coating, GripsIt – this coating makes clean up easy for those sugary-coated products and breakfast items.

### **Standard Features:**

- Rugged stainless steel construction
- Simplest installation – plugs into any outlet with corresponding voltage
- GripsIt Rollers
- Easy to see color coded grease seals to identify front (black) and rear (white) rollers
- Rollers rotate at a complete 360° turn by means of a roller sprocket, motor sprocket and chain
- End bearing and grease barrier double protect against grease seepage
- Control cover
- 4" adjustable legs
- One year parts and labor warranty
- ETL, ETL CSA & NSF Listed

### **Note:**

The chains that drive the rollers should be inspected and greased once a year to be sure that they continue to operate correctly. This will allow the machine to operate for a much longer time.
