

**Uni-Tag Key Cabinet, 30-Key, Steel, Sand, 8 x 2 5/8 x 12 1/8**

Help avoid wasted time and frustration by organizing your key sets. In these heavy-gauge, welded steel cabinets with piano-hinged doors, all keys are attached to numbered tags and filed securely on key rack slots. For convenience, whenever key is on loan, the "Out Key" control tag records key number, key recipient and date and is then filed under same slot for accountability—a great, simple system. Additionally, the alphabetical and numerical lock location data charts assist in organization. For security, each cabinet has a locking door with a standard disc tumbler key lock with two keys.

**Item Specifications**

Brand	SteelMaster®
Global Product Type	Key Organizers-Cabinet
Key Capacity	30
Material(s)	Welded Steel
Color(s)	Sand
Width	8"
Depth	2 5/8"
Height	12 1/8"
