

## → simplehuman® 45 litre rectangular step can grey

Our rectangular step can features a built-in 'liner pocket' that stores and dispenses liners from inside the can. Its stainless steel liner rim flips up for a quick bag change, then closes to grip the liner and keep it hidden. The strong wide steel pedal is designed to last, and our patented lid shox technology ensures a smooth, silent close every time. Our code K liner refill packs (20 liners per) fit this can's liner pocket perfectly, dispensing liners one at a time from inside the can for a faster liner change.

- easy liner refills: Built-in liner pocket holds code K liner refill packs (20 liners per) and dispenses liners one by one effortlessly - no perforations or unraveling.
- neat and secure: Stainless steel liner rim flips up for a quick and easy bag change, then closes over the liner to hold it tightly in place and keep it hidden from sight.
- strong wide steel pedal: Our extra-wide steel pedal is engineered to last 150,000 steps — that's more than 20 steps a day for 20 years.
- silent close lid: Our patented lid shox® technology controls the motion of the lid for a slow, silent close.
- stabilizer bar: Keeps the can steady for smooth and solid operation.
- internal hinge: Prevents the lid from bumping the wall.
- custom fit liners: Our code K liners are designed to fit this can perfectly and are extra strong to prevent leaks and tears. Come in convenient refill packs that dispense liners one at a time and fit perfectly in cans with our new liner pocket feature.
