DAYMARK LABELSAFE™

LABEL DISPENSER

LABEL SAFE™

Unlike hinged units that can crack or break, the DayMark LabelSafe™ features a clear, separate lid that fits securely on the case, removes easily, and is ideal for monitoring label inventory. The LabelSafe storage system is available in four versions, each accommodating different label sizes and capacities.

Made of sturdy polypropylene, the LabelSafe easily holds the weight of all labels when its label compartments are filled to capacity. It features non-slip pads on the bottom and a secure locking mechanism that protects the labels in high-impact situations.

DayMark LabelSafe™

	Size/capacity	Item Code
A	2 inch holds 2" labels (500 labels per roll)	IT1 17505
B	1 inch holds 1" labels (1000 labels per roll)	IT1 17504
C	.75 inch holds .75" labels (2000 labels per roll)	IT1 17588
D	2 inch/1 inch holds one roll of 2" labels (2000 labels per roll), or two rolls of 1" labels (1000 labels per roll)	IT1 18329
