## INSTALLATION

1. Align the holes in the Face Cap, Shield Panel, and Stainless Stand, layering them as shown.
2. Insert the 5/8" Screws into the holes on the front of Face Cap and tighten them down using the (4) Wing Nuts. Tighten Wing Nuts.

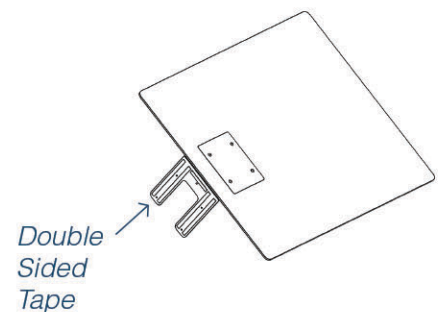

*Tighten Wing Nuts*

3. Move all counter top equipment where the stand will sit. Thoroughly clean the countertop surface with window cleaner where the stand is to be applied. *Use glass cleaner on the countertop only (not the shield).*

4. Remove the protective film from the double sided tape on the bottom of the Stainless Stand

*Double Sided Tape*

5. Press down firmly back and forth several times on the back of the Stainless Bracket to stick the tape to the counter top. Can be screwed to surface if desired. Replace any countertop equipment behind the stand as needed.

*Press firmly here*

Installation Complete!
