Warranty

Server Products equipment is backed by a two-year limited warranty against defects in materials and workmanship. For a copy of our complete warranty statement, see our web site or contact us.

Bid Description

The Express Center™ is constructed of a brushed finish stainless steel base. The front section is furnished with a Server Express™ System—a surgical-quality plastic, condiment pump in a black thermoset polyester vessel. Pump vessel lid is polished stainless steel. The back section includes a Serve-A-Cup™ soufflé cup dispenser which is constructed of a polypropylene cup tube.

The Express™ System capacity is 1½ gallons (or 6 L). Maximum stroke yields 1 ounce (30 mL). Portion control reduces the yield in ¼ ounce (7 mL) increments. NSF listed unit exclusively uses a Cryovac® pouch with 16 mm fitment.

The Serve-A-Cup™ includes cup guides and strippers to dispense ¾ and 1 ounce (22, 30 mL) paper or plastic soufflé cups one-at-a-time. Capacity is approximately (100) paper cups.

The Twin Express Center consists of a brushed finish stainless steel base furnished with (2) Server Express™ Systems and (2) Serve-A-Cup™ soufflé cup dispensers, as described above.

Standard Features

Pump vessel holds a 1½ gallon (or 6 L) Cryovac® pouch

New Server pump is constructed of surgical-quality plastic parts — quick to breakdown and completely dishwasher safe

Pump is ADA compliant, at ½ oz and ¼ oz portions, requiring less than 5 lbs of pressure to dispense

Maximum stroke yields 1 ounce (30 mL)

Easy-to-adjust portion control in ¼ ounce (7 mL) increments

Discharge tube fitting — **new** design works with ketchup, mustard and mayonnaise

Express Center™ Accessories

- ☐ Duckbill Discharge Fitting 07454
- ☐ Replacement Pump 07537
- ☐ Decal Set: Ketchup, Mustard, Mayo 07131
