

Stainless steel mills are 18/8 stainless steel for superior corrosion resistance.

Beechwood mills have a polyurethane coating to prevent fading and staining.

KNOB

- Ridged grooves to maximize grip
- Longer rod for knob security
- Turn clockwise - finer grind
- Turn counter-clockwise - coarser grind

SHAFT

Solid, round stainless steel for durability

COMPONENT PARTS

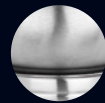

Marine-grade stainless steel for corrosion resistance and longer durability

SPRING LOADED MECHANISM

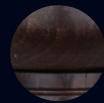

Ensures a consistent grind selection

CARBON STEEL GRINDER

- Carbon steel - the sharpest and most durable grinder on the market.
- Cuts the peppercorns to release the rich flavor and aroma then grinds to desired level
- High quality wear-resistant stainless steel alloy
- Lifetime guarantee on grinding mechanism

superb design, outstanding performance

Trudeau professional salt & pepper mills combine durable, resistant materials with superb design. Each pepper mill features a spring loaded, carbon steel grinding mechanism for consistent and efficient output. Likewise, the salt mill's wear-resistant, stainless steel alloy grinding mechanism offers protection from sea salt corrosion while allowing for the powder-fine grinding of small or large sea salt crystals.
