TCM Series:
Horizontal Slide Top Merchandiser

TCM-84

- ▶ The world's #1 manufacturer of glass door merchandisers.
- ▶ Convenience store coolers are designed to fit easily into space conscious stores because of their lower height and narrow depths.
- ▶ True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, and lower utility costs in a convenient spot merchandiser for beverages.
- ▶ Uniquely sized for placement in a variety of popular impulse merchandising locations.
- ▶ Oversized, factory balanced, refrigeration system holds 33°F to 38°F (.5°C to 3.3°C).
- ▶ Exterior - non-peel or chip black laminated vinyl; durable and permanent.
- ▶ Interior - attractive, NSF approved, white aluminum interior liner with 300 series stainless steel floor.
- ▶ "Low-E", double pane thermal glass lid assemblies. The latest in energy efficient technology.
- ▶ Entire cabinet structure is foamed-in-place using Ecomate. A new, innovative, high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

ROUGH-IN DATA

Specifications subject to change without notice.
Chart dimensions rounded up to the nearest 1/8" (millimeters rounded up to next whole number).

Model	Lids	Capacity (Cu. Ft.) (liters)	Cabinet Dimensions (inches) (mm)			HP	Voltage	Amps	NEMA Config.	Cord Length (total ft.) (total m)	Crated Weight (lbs.) (kg)
			L	D†	H

TCM Series:
Horizontal Slide Top Merchandiser

STANDARD FEATURES

DESIGN

- True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, and lower utility costs in a convenient spot merchandiser for beverages.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly (CFC free) 134A refrigerant.
- Extra large evaporator coil balanced with higher horsepower compressor and large condenser; maintains cabinet temperatures of 33°F to 38°F (5°C to 3.3°C).
- Sealed, cast iron, self-lubricating evaporator fan motor(s) and larger fan blades give True merchandisers a more efficient low velocity, high volume airflow design. This unique design ensures faster temperature pull down of warm product, colder holding temperatures and faster recovery in high use situations.
- Condensing unit accessed from rear of cabinet, slides out for easy maintenance.

CABINET CONSTRUCTION

- Exterior - non-peel or chip black laminated vinyl; durable and permanent.
- Interior - attractive, NSF approved, white aluminum liner with 300 series stainless steel floor.
- Insulation - entire cabinet structure is foamed-in-place using Ecomate. A new, innovative, high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

- Cabinet fitted with leg levelers.
- "Low-E", double pane thermal glass lid assemblies with mitered plastic channel frames. The latest in energy efficient technology.
- Each slide lid fitted with 3" (77 mm) handle.

SHELVING

- Five (5) heavy duty, 10 mil thick pure grade PVC coated adjustable bin dividers to maximize storage (1 divider of a different size than other dividers).
- Floor rack standard to prevent product from blocking optimal airflow.

LIGHTING

- Fluorescent interior lighting, safety shielded.
- Cabinet lighting utilizes electronic ballast and T-8 bulbs for brighter illumination, longer bulb life and increased energy efficiency.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Convenient clean-out drain built in cabinet floor.
- Listed under NSF-7 for the storage and/or display of packaged or bottled product.

ELECTRICAL

- Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply.

- 230 - 240V / 50 Hz.
- White exterior with black trim.
- Black interior.
- 1 1/2" (39 mm) diameter castors.
- 2 1/2" (64 mm) diameter castors.
- 4" (102 mm) diameter castors.
- Remote cabinets (condensing unit supplied by others; system comes standard with 404A expansion valve and requires R404A refrigerant). Consult factory technical service department for BTU information. All remote units must be hard wired during installation.

PLAN VIEW

WARRANTY

One year warranty on all parts and labor and an additional 4 year warranty on compressor. (U.S.A. only)
